(Please note: Completion of online course content is required prior to attending this event. You must present a completion certificate prior to the start of the convention in order to enroll).

The SVN has established a registry of vascular nurses with expertise in Peripheral Artery Disease (PAD) to provide education and ABI training sessions to health care professionals. Training may occur in areas such as hospitals, outpatient settings, long term care centers, and professional societal meetings. The registry consists of SVN members who have completed a comprehensive PAD education and ABI train-the-trainer workshop. Your name will be added to the SVN ABI Registry with successful completion of this session at the Annual Convention.
